

Maths

This half term we are going to be focusing and developing the following areas: Fractions, Decimals and Percentages, Properties of Shapes, Statistics, and the 4 areas of measurement.

In Fractions, Decimals and Percentages we will be continuing to add and subtract fractions with the same denominator, recognising and showing, using diagrams families of common equivalent fractions and counting up and down in hundredths; and understanding that hundredths arise when dividing an object by 100 and dividing tenths by 10.

In Properties of Shapes we will be focusing on comparing and classifying geometric shapes including quadrilaterals and triangles.

In statistics we will be creating and presenting our own data so that we can interpret it through comparisons, sums and difference problems.

Finally, we will end of the half term by focusing on length, mass, volume, capacity focusing on converting the units and then problem solving, linking back to addition, subtraction, multiplication and division.

Science

This half term we will be focusing on electricity. During this topic, we will be identifying common appliance that run on electricity, constructing a simple series electrical current, identifying and naming the basic parts and carrying out different investigations based on this.

English

We will begin the topic by focusing on narrative writing. The focus text will be the story of Aladdin. During this unit we will be continuing to consolidate the use of key features, including fronted adverbials, expanded noun phrases, inverted commas and organising our work into paragraphs.

Following this we will then move onto play scripts, we will begin by unpicking the main features so we understand the structure and purpose of a play script. We will then magpie the features to write our own play scripts that will then be performed.

PE

In PE we will be completing Tennis indoors and outdoors. 4RN will be Swimming in the Autumn term and 4CC will be swimming in the Spring term.

Geography

We will be developing our place knowledge by understanding the similarities and differences of different countries. We will do this by researching different countries and then comparing them to the United Kingdom.

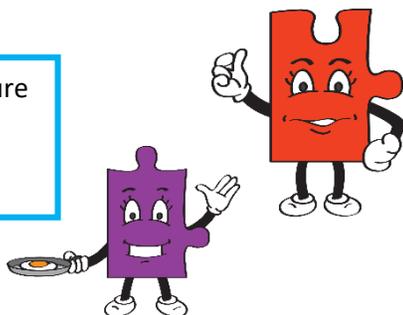

Year 4 Autumn Term 2

Aladdin

Learning Culture

LORIC

Languages

We will be learning the days of the week in Spanish and develop our knowledge of number further by learning different dates.

Art

This half term we will be focusing on famous artists, in particular artists who draw animations. We will then use their ideas and methods so we can imitate them to draw different characters from our favourite animated movies!

PSHE/SMSC/British Values

We will be focusing on Anti-Bullying this half term. During this we will be looking at the characteristics of bullying, understanding how to keep safe and learning how to prevent bullying from happening in our school.

Music

We will be developing our performing skills this half term, by using our voices with increasing accuracy, fluency, control and expression ready for you to join us for an Aladdin sing-a-long afternoon!

Computing

This half term we will be focusing on music. We will be discussing the types of music they could create and then will have a go at creating and editing their own work ready to share with an audience.

RE

This half term we will be focusing on Christianity, during this we will be learning about the cycle of the Christian year and understanding how festivals are celebrated. We will also look at Remembrance Sunday, Advent and Christmas in detail.
