

## **Art Intent Statement**

At Gunthorpe Primary School we are dedicated to providing an Art curriculum that values “every child as an artist” as part of our broad curriculum. We aim to engage and inspire pupils while providing opportunities to express their own thoughts and ideas. Our Art curriculum balances knowledge and skills while fostering an interest and love of art through curiosity and creativity. By exploring a wide range of artists and existing pieces, children discover different time periods and cultures. The skills and enjoyment we develop through the Art and Design Curriculum enriches our lives, develops critical thinkers and helps us to understand the world.
