The schools within the Trust share common values, placing learners at the centre of everything that they do. With ambitions to **S**ustain high achievement, **E**mpower confident learners and **T**ransform the life opportunities for all, each school retains its own school identity.

The Trust is a Primary focused Multi Academy Trust where schools are able to share best practice, staffing expertise and common experiences.

Schools are led by the Headteacher and Local Governing Body, driving opportunity and school improvement, whilst retaining its own unique flavour and identity. We recognise the vast array of positive qualities and strengths within each of our schools. Working together and drawing upon this wealth of talent ensures that we provide the very best learning opportunities and enrichment for our pupils. The Scheme of Delegation enables the Governing Bodies of each school within the Trust, to ensure they can maintain their unique ethos and values.
