

**Art Skill:**

Painting and Sewing

**Year 3:**

Autumn Term 2

### Artist Focus

#### Alice Kettle

Alice Kettle is a UK based textile artist. She originally trained as a painter and often begins her work with a painted background that she embroiders onto.

The paint and stitching combine to create large areas of **colour**. She used repeated **lines** of stitching.

#### Hannah Rae

Hannah Rae is a textile artist from Cambridge who forms her work with embroidery. She colours fabric by printing, dyeing and painting before adding **line**, **texture** and **shape** through stitching.

Many of her pieces are based on the environment.

### Key Skills

#### Painting

Adding **colour** to a solid surface using paints. Not all painting is completed with a paintbrush!

We will be using paints on fabric for our art.

#### Sewing

Sewing can be used to join or create. By mark making with the stitches we use, we can create **lines** and **shapes** to represent anything.

### Previous Learning

Year 1

We learned about primary and secondary colours through colour mixing and repeated patterns.

Year 2

We created Christmas tree decorations using fabric and running stitches. We experimented with tints and tones of the colour green when thinking about our rainforest prints.
