

Art and DT Intent Statement

At Gunthorpe Primary School we are dedicated to providing an Art and Design Technology curriculum that values “every child as an artist”. Learning is purposeful, has clear links to real life and pupils work towards a final piece or product. We balance knowledge and creativity while providing ample time to achieve this. We foster an interest and love of art through curiosity, risk taking and problem solving. The children gain the confidence to use different tools and techniques as well as having the opportunity to express themselves through different media.

Our Art and DT curriculum enables pupils to develop lifelong skills that they build from their own life experiences. By exploring a range of artists and existing products, children discover different time periods and cultures as well expressing their own ideas. The skills and enjoyment we develop through the Art and Design Curriculum, enriches our lives and helps us to understand the world.
