

Science Focus:

Seasons: Autumn & Winter

Year 1:

Autumn Term

Key Knowledge

 seasons	There are four seasons each year, autumn , winter , spring and summer.
 autumn	In autumn, the weather begins to get colder. The leaves start to fall from the trees. The amount of daylight becomes less. This means the daytimes are shorter and the night times are longer.
winter 	In winter, the weather is much colder. Sometimes it is cold enough to freeze. It sometimes snows. Many trees have bare branches as all their leaves have fallen off.
 weather	The weather includes the temperature outside, the wind direction and strength.
 daylight	Daylight is when it is light outside. The amount of daylight changes with each season.

The Four Seasons	
autumn September October November	winter December January February
spring March April May	summer June July August
