Seasons: Autumn & Winter

Year 1:

Autumn Term

Key Knowledge

<p>★ seasons</p>	<p>There are four <i>seasons</i> each year, <i>autumn</i>, <i>winter</i>, spring and summer.</p>
<p>★ autumn</p>	<p>In autumn, the weather begins to get colder. The leaves start to fall from the trees. The amount of daylight becomes less. This means the daytimes are shorter and the night times are longer.</p>
<p>★ winter</p>	<p>In winter, the weather is much colder. Sometimes it is cold enough to freeze. It sometimes snows. Many trees have bare branches as all their leaves have fallen off.</p>
<p>★ weather</p>	<p>The weather includes the temperature outside, the wind direction and strength.</p>
<p>★ daylight</p>	<p>Daylight is when it is light outside. The amount of daylight changes with each season.</p>

The Four <i>Seasons</i>	
<p><i>autumn</i> September October November</p>	<p><i>winter</i> December January February</p>
<p><i>spring</i> March April May</p>	<p><i>summer</i> June July August</p>
